## Finding Hi/Lo Books for Older Students on myON

## **Using Filters When Searching**

Follow these instructions to use the filters available in the myON book search. First, select **Library**, then **Search**.

If you don't see the filter options, you many need to click the funnel icon on the top left part of the page to open the filters. (For depending on your assigned grade).

Students or Faculty choose the filters they want to use, then enter words to search for and click the magnifying glass to search. To reset filters, select 💿 or 💿.

This link will describe each filter. https://help2.renaissance.com/myON/using-filters-when-searching

## Searching for books for older students that have a lower Lexile.

Example: Grade 8 student with a Lexile of 500.

Grade Level range - 7-8.

Lexile range - 450-550

The result is 46 books for the student to browse through that are at his reading level and interest.

Using punctuation and words like "the," "a," and "and" can make it harder for the software to find the specific books you're looking for. Search for the main words in the title to find books quickly.
